Name of the program: CAREER EDUCATION program for BBA students' academic year 2018-

2019

Activity: Interview and examination preparation

Number of students: 25

Duration: 20 hrs

The Swami Vivekananda Institute of Modern Science has organized a comprehensive training program particularly designed for BBA students with the aim of enhancing their skills and preparing them for advanced academic pursuits. The curriculum is specifically intended to ensure a seamless transition from undergraduate to postgraduate study, providing students with the necessary tools to excel in their chosen fields.

The program occurred in August 2022 and encompassed a collective of ninety-six students. A total of ninety-six students, representing six different disciplines, were admitted to this program based on the order in which they applied. Among these students, five were from engineering and one was from management. The SVIMS campus provided a total of 10 courses in a traditional face-to-face style. The average attendance of the students during the program surpassed 80%.

Program Objectives:

Academic Excellence: This training focuses on reinforcing core BBA concepts while introducing advanced subjects, ensuring participants have a strong foundation for higher studies.

Research Proficiency: The program places a significant emphasis on research methodologies, encouraging students to explore and contribute to their respective fields through hands-on projects and case studies.

Professional Development: In addition to academic skills, the training integrates modules on soft skills, communication, and leadership, preparing students for the multifaceted demands of higher education and future careers.

Global Perspective: To foster a global mind set, the program includes sessions on international trends, collaborations, and exposure to diverse academic and cultural environments.

Advanced Courses: Tailored courses in specialized areas, aligned with current industry trends and emerging technologies, are integrated into the curriculum.

Website: www.svims.org

Interactive Workshops: Regular workshops led by industry experts and seasoned academicians provide insights into real-world applications of theoretical knowledge, enhancing practical understanding.

Research Symposiums: Students are encouraged to present their research findings at symposiums, fostering a culture of academic discourse and promoting collaboration.

Mentorship Program: Each student is assigned a mentor – a seasoned professional or academician – to guide them through their higher education journey and help navigate academic challenges.

Assessment: Continuous assessment through assignments, examinations, and project evaluations ensures a holistic understanding of the subjects. Successful completion of this training adds value to the students' academic profiles.

Conclusion: It acts as a beacon for BBA students who wish to pursue further education. The program provides students with a combination of challenging academics, practical experience, and mentorship, helping them to succeed not just in their postgraduate studies but also in their chosen careers. This exemplifies our commitment to nurturing the growth of exceptionally skilled professionals who possess the ability to excel in an international context.

Name of the program: Career Talks program for BCA students' academic year 2022-2023

Activity: Interview examination preparation

Number of students: 60

Duration: 20 hrs

The Swami Vivekananda Institute of Modern Science has organized a comprehensive training program particularly designed for BBA students with the aim of enhancing their skills and preparing them for advanced academic pursuits. The curriculum is specifically intended to ensure a seamless transition from undergraduate to postgraduate study, providing students with the necessary tools to excel in their chosen fields.

The program occurred in August 2022 and encompassed a collective of ninety-six students. A total of ninety-six students, representing six different disciplines, were admitted to this program based on the order in which they applied. Among these students, five were from engineering and one was from management. The SVIMS campus provided a total of 10 courses in a traditional face-to-face style. The average attendance of the students during the program surpassed 80%.

Program Objectives:

Academic Excellence: This training focuses on reinforcing core BCA concepts while introducing advanced subjects, ensuring participants have a strong foundation for higher studies.

Research Proficiency: The program places a significant emphasis on research methodologies, encouraging students to explore and contribute to their respective fields through hands-on projects and case studies.

Professional Development: In addition to academic skills, the training integrates modules on soft skills, communication, and leadership, preparing students for the multifaceted demands of higher education and future careers.

Global Perspective: To foster a global mind set, the program includes sessions on international trends, collaborations, and exposure to diverse academic and cultural environments.

Advanced Courses: Tailored courses in specialized areas, aligned with current industry trends and emerging technologies, are integrated into the curriculum.

Interactive Workshops: Regular workshops led by industry experts and seasoned academicians provide insights into real-world applications of theoretical knowledge, enhancing practical understanding.

Research Symposiums: Students are encouraged to present their research findings at symposiums, fostering a culture of academic discourse and promoting collaboration.

Mentorship Program: Each student is assigned a mentor – a seasoned professional or academician – to guide them through their higher education journey and help navigate academic challenges.

Assessment: Continuous assessment through assignments, examinations, and project evaluations ensures a holistic understanding of the subjects. Successful completion of this training adds value to the students' academic profiles.

Conclusion: It acts as a beacon for BCA students who wish to pursue further education. The program provides students with a combination of challenging academics, practical experience, and mentorship, helping them to succeed not just in their postgraduate studies but also in their chosen careers. This exemplifies our commitment to nurturing the growth of exceptionally skilled professionals who possess the ability to excel in an international context.
